Holiday season 2002

Phone: 616-364-8455, 800-292-8768, fax: 616-364-4817

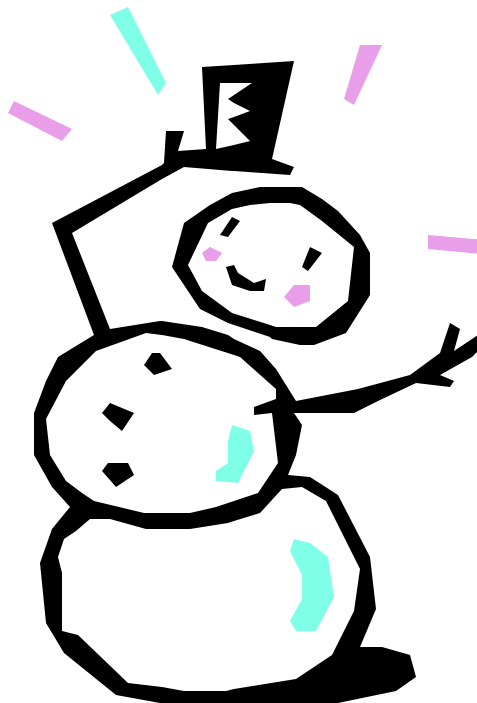

Fullersupplycompany.com!

We should have our site up this month. Check it out then and see what you think. I am sure you will find it useful. It is full of data, facts, and charts that may answer a question even after hours. If you buy the majority of your supplies from us, we will link our site to you. Just call us and we hope to refer people to you who are interested in products we sell. Our phone is always ringing from homeowners calling to find someone who can install or sell a product. We will now refer them to our site to see who is available in their area. The new ISDN high speed internet service we have will do this quick and efficiently. Call and let us know what you would like put on the referral.

Franklin Electric Company has released the new 3hp version of the SubDrive 150 variable frequency drive. It looks

just like the SubDrive 75, and its internal parts are mostly the same. From the outside it looks identical to SubDrive 75.

This unit has been time

The white stuff is coming soon. Do you have plans for an alternative to outside work?

proven, and we helped do that by giving some away for trial use right here in Western Michigan. It also has been used in the gas pump industry for several years. Please consider this on your next job

where constant pressure would help smooth out a wide variety of demands. Power savings, very small tank, and several protection features convince customers that this SubDrive is a great answer to "city-like" pressure. It is very cost competitive due to a small tank, and using a 1.5hp pump end to deliver 3hp flow and pressure. We purchased Franklin's entire first production run. That's how confident we are that this is going to be a popular product. Please call us for a quote, or if you have any questions.

During the holiday season we will be closed Christmas eve and Christmas day. Then the following week we will be open 1/2 day New Years Eve and closed New Years Day

Berkeley Pumps are now at Fuller Supply. Sta-Rite has purchased Aermotor Pumps. Berkeley is a wholly owned subsidiary which we now have full access rights to. It is a great addition to our broad line of pumps. If you are not familiar with Berkeley, you will find that they control the engine driven pump market. Gas, diesel, SAE motor, belt or PTO mounted up to 6000GPM. This wonderful addition is a standard in the irrigation market. Self primers, Fire protection, and end suction pumps in cast iron, aluminum, and stainless steel construction. Call for more information or pricing.

Goulds Pumps has expanded its promotions. As you may have noticed, we are having more pump incentives from Goulds/ITT. The next one is a December program just in time for year end deductions. The West Mich. Tourist Assoc. has gift cards they print up that can be used at over 300 locations from Macinac Island to the border. You can use the cards as cash at resorts, restaurants, golf courses, stores, almost everywhere. Ask your salesperson to explain. (For a complete list of places to use the gift cards, call or go to www.wmta.org/articles/giftcard.pdf. Or we will be passing out a list to inspect. So buy Goulds and have a happy holiday season.

Want to learn more? Or just starting out.

This winter the Michigan Ground Water Assoc. can help you gain more knowledge to get the edge you need, or answer your questions. Two seminars are planned for this winter. One is for the new people to the industry trying to start out or just learn the basics. This is called the Ground Water Fundamentals

Course. It will be Jan 14 & 15, 2003. The second course is for contractors already veterans. This is the Advanced Course. It will be Feb. 25 & 26, 2003, both are held at the Holiday Inn, Grayling, MI. Call 734-428-0020 to sign up. You can attend whether you are a member or not. Several subjects will be dis-

cussed. Most that participate say it is very worth while.

The Mich. Ground Water State Convention will be in Grand Rapids Mar. 31, & Apr. 1, 2003. Please plan on attending our breakfast on your way to show on the 31st at our place. It has been a success in the past.
